EDUCATION

Virginia Tech **Blacksburg, Virginia**
Masters in Creative Technologies and Software Development *Graduation, May 2025*

- **Concentrations:** Game Development and Software Development
- **Related Coursework:** Web Applications Development, Mobile Applications Development, Software Engineering, Object-Oriented Programming, Virtual Reality, Virtual Environments, Creative Coding.

University of Ghana **Accra, Ghana**
Bs. In Agricultural Engineering *Graduation, Nov. 2021*

- **Related Coursework:** Algebra, Calculus I, Calculus II, Differential Equations, Numerical Methods, Statistics.

EXPERIENCE

Open Learning Exchange **Remote**
Software Engineering Intern *Sept 2025 – Jan 2026*

- Used **Linux** and **Docker** to set up the Planet web application locally to support development and testing.
- Utilized **Angular**, **CSS** and **SCSS** to implement updates of the **UI** and **functionality** of the Planet web application.
- Collaborated through **GitHub**, using **Git Bash** and **PowerShell** to create issues, manage commits, and submit pull requests that enhanced the performance and usability of the Planet Web application.
- I used **Angular** to implement a certificate upload feature for my internship **capstone** project. This feature allows administrators to upload certificate templates that users can download after completing courses. The certificates are dynamically generated to display the user's name and the course completed.

ABE Scott Enterprises **Remote**
Front-End Development Intern *July 2025 – Sept 2025*

- Used **React-Native** scripts to create front end pages for the MyRideLink mobile app (a ride hailing mobile app).
- Managed version control and collaborative development using **GitHub**, **Git Bash**, and **PowerShell** by creating commits and pull requests, streamlining the application development workflow.
- Utilized **HTML**, **CSS** and **JavaScript** to create webpages for the ride hailing web application.

PROJECTS

React Applications (React.js) **Blacksburg, Virginia**
Jan 2025 –Mar 2026

- Built multiple React applications using hooks, APIs, state management taking into consideration, performance, accessibility responsiveness and user experience.

Game Development with Unity (Unity Games) (2D Game)(VR Experience) **Blacksburg, Virginia**
Jan 2024 – May 2025

- Developed 2D Games utilizing C# and the Unity Game Engine.
- Utilized C# and Unity game engine to create a virtual experience of a historical site in Ghana.

Game Development with Unity (3D Models) **Blacksburg, Virginia**
Aug 2023 – May 2025

- Designed 3D Models with Autodesk Maya, substance painter and ZBrush for concepts and VR experiences.
